Dear Engelmann

You are quite a tramp. Callitriche pass, with yours of 29th ult, came duly, and that of Euphorbia to-day. Thanks — I shall reach both to-morrow, if Rimmx does not take me as long to mine as Polygonum did.

— Can I help you about Agave. If you are publishing them, you may add if you like — as somewhat apropos — this Aloe — I dredged up from the flowing plant last summer. —

As to Isoetes, I showed not

Dear E.

Yrs my Solanum pycnacanthum, in Cat. H. Empire. Exped. Bryan. was been printed? And have I a copy?

If not pick you. If you have my MSS. send a copy of the Chor. It is in the Sierra Nevada - Paper.

Brett says you are coming here. Too good news to be true. But I shall not send proof till your next letter comes. That may send it.

A.G.

Dear E.,

I have been lazy, or preoccupied, and got off the parcel for you only to-day. This envelope & bits enclosed have been on my table some while. I will send it to-morrow after George calls — when I shall expect, in the morning, Wright (address here, to my care) and I am all there is in the house, this, Stray, having got well enough for the purpose — has gone down to Beverly, to attend her sick father. — Will stay probably some weeks.

Your letter is 24d. Sep. Orlando — you shall have a set, certainly, and not one of 'the flasks', which may as well go to some one else. More plants for them are on the way to us.

Mr Reid Mann
buy a gr for Sandwich
I. Plants.
Nymphaea sub —
well,
Mr. of Linn. Soc. Journal
is in the parcel sent to
you.
I lately had a short letter
from Parry.
Yes — you must take
my Lemna — & look it
over at your leisure, and
advise me of any change
necessary to make in that
as well as in Wolffia, in
&c. I am disgusted
with the way in which Mr.
Austin has left them.
Oh, dear, I forgot to
put in parcel the rev.
of Seemann's Journal (XXVIII)

Containing Stephens article on Mlnitzek's Angela Lunacee;
I send it now, by mail.
Look out for it.

When you send back my Lunacee — or send anything, get some boy to get it & send me some fresh Selaginellas seeds!

We are still two out here — as you are two days. Might will be here all winter

He asks what you have made of that Fritsch — what it is to be called, &c

Yours ever

Dear E,

I despatched this morning, as I went to church, an envelope to you, in which George wrote. I suppose told you of his doings here about.

I am sorry Mrs. Gray attending her sick father, and see so little of him. I had engaged to go for Friday afternoon & night to Beverly, with Brewer. We took George along, and he found a hearty welcome at my brother-in-law — the Jacksons & went next morning to Nahant to see Agassiz. — Father gave a letter to Bancroft — whom I do not personally know. —

I have turned George's talents to use making him copy the sketches of Cornelius — which then I can return to you. —

George is a manly — and fellow — of real promise.

Now thanks for your Carte-de-visite photo-graph, — excellent — and what I wanted. I want one for Hooker, unless you have sent, Have you sent one to Darwy?

Yours ever

A. Gray

Dear E.

Ranie

Yrs of Sept. 16. & Oct. 6.

Mr. Lincoln's sickness & death has caused distraction to me, as well as grief to us all.

O'Mpsty much of it rather shaky now — & the luck tied up with most liberal provision for widow. My wife gets only the use of $5000 (say 300 a year) for our lives.

Orlando's all right yesterday. I have had no time to attend to the distribution. It was all done by Mann.

I am going to name

them now sent, as well as I can.

"Never rains but it pours!" Britt must have sent you his Naias of Nebraska. Send the key free to me.

Fix it up for added, to Manual —

Please fix Millspa's you need have it; count the cards, so as just to fill the space it now occupies in Manual, and I will substitute.

You had better send me part of Parry's expensive plants & let me share that outrageous $20.50

I am lame by a fall — I will soon know what. I will soon see if I can get you a fl. of Philippsea Cumea.

I have long thought they would run together, & Asphyxia be spoiled,

Send the Lemna by Express at Lisbon — along with other things — some seed of Schmitheria in bottle with wet moss, would please me.

Glad you are at Grapes. Mann has written to Vermont for first-grapes,

Wishing since I have tasted them: but nothing buggy. but sour & rather pinckney.

Ever A. Gray

Glad you sold Maine for the Lemons. He is put for meat & taste tell
as he should be

Dear Engelmann

I send you by mail your copy of the new part of Benth. & Hook. Genera Plantarum

I believe there is a letter to answer from you — will see —

Ever Yours

Dear C.,

Yours of 19th has been in some time, but I could not get a moment to write. Read your check of $60. — You shall have for your money a fair share of plants — some of Kellogg's additamenta — some.

I see in many marks of haste and inconsideration in the Gen. Pl.

I have scolded Mann for not properly fixing up the packages sent to you.

As to Parry's plants send me a complete set — everything, and let me divide the charge with you. I should like to have 2 or 3 sets, for correspondents. And I think,

send me two full sets.
The only question is if I have to pay Parry and how much. But I will have a 2d set any way.
My idea is that Parry wants a good part of his specimens to take ~~abroad~~ to Europe with him, next summer.
I did not know you were leaving your house!
Don't fail to secure some happy bit of leisure in which to fix up for me the Wolff a Summa for new issue.
What does A. Brown say to the Swiss?
I would prefer his view. If he will express any.
It is time he pronounced on it.
